TEST RESULTS SEROTYPING

Starting date of serotyping: dd/mm/yyyy

Finishing date of serotyping: dd/mm/yyyy

Please report only those results, on which the identification of the serovar names is based. Be sure to give under "serovar name" the complete serovar name you assign to the strain, even if this means that you have to repeat the O/H antigens as found (see examples 3-5). Also note that for technical reasons it regrettably is not possible to use special fonts like "italic" or ' subscript' in the submission of your data.

Examples of preferred reporting:

O-antigens	H-antigens (phase 1)	H-antigens (phase 2)	Serovar name*
9,12	g,m	-	Enteritidis
4,12	i	2	Typhimurium
4,5,12	i	-	4,5,12:i-
6,7	-	1,5	6,7:-,1,5
42	g,t	-	42:g,t-

*Please report the serovar name without indicating "S." or "Salmonella".
